Embassador White would have attended if the Pope had granted a dispensation for a marriage ceremony in a Protestant church; but he wouldn't, so either. Embassador Whitelaw Reid and Mrs. Reid also remained away from the wedding, which took place in Paris. Naturally, the wedding separates Miss White from all her family. She was old enough to choose for herself, how-ever, being just turning into 30, while her husband is past 30. He hasn't much money and she has. When they separate she won't have any money, either; but Papa White will probably hold out enough to take care of his daughter when she comes back to him.
